MINISTER

MoAF/NBC/2015/ 171

18th September 2015

Ministerial Order

Bhutan became a member of the International Treaty on Plant Genetic Resources (ITPGRFA) in 2003 after ratification by the 83rd session of the National Assembly.

Article 10.2 of the ITPGRFA states that “In the exercise of their sovereign rights, the Contracting Parties agree to establish a multilateral system, which is efficient, effective, and transparent, both to facilitate access to plant genetic resources for food and agriculture, and to share, in a fair and equitable way, the benefits arising from the utilization of these resources, on a complementary and mutually reinforcing basis”.

In order to honor the objective of the treaty and comply by the treaty, RNR GNH Committee and the Ministry on 24th August 2015 has endorsed sixty (60) accessions of rice germplasm from the National Plant Gene Bank at NBC to include into the Multilateral System (MLS) of ITPGRFA as indicated in table below.
